

Tham Than Lot Yui.

Grade 1 survey.

A spectacular arch cave, c. 60m long, 40m wide, 40m high. same thinly bedded lts as T.T.L. Noi, dips shown on sketch. outcrop of of med. grained pale granite, mainly qtz. some feldspar (irregular shape), biotite laths + some chlorite. Granite has formed dykes up through lot beds on south wall. lot appears very sandy but is prob. recryst. to marble. Exhibits structural features. N. wall is heavily covered by lichen. lot is well bedded again + is relatively straight. Underlying is pos. qtzite which is filled no granite seen. Needs a return.

A very large python was seen near downstream exit  
 (9699 2) 2-2.5m long, c. 30-40cm around middle
