(to North)

50m away is a choked stream in a doline.  
Gets too tight c. 10m depth, ~~is~~ ~~is~~. Large boulder  
prob. in situ, holes in soil. Stream is seasonal

at N. end of Khao Ling is a stream resurgence.  
Cave has big entrance but cannot be accessed because  
stream rises out of muddy floor.

The area (doline on map) to E of Khao Ling is a  
series of shallow dolines in a plateau area, not as  
shown on map.
