Tham Dam  
(Low Cave)

๕๗๗ ๕๗๗ ๐๐๐ ๕๗๗

Before Tham Nam signed path leads up to the wide entrance. Entrance chamber floors to quite a depth, but was dry with one static pool. Passage heading upstream, valves, mud/sand floored.

Probably joins to Tham Nam.

Saw tail of Cave Racer in daylight chamber.

47Q 815462 1900463 373m

Again promising!
