cave entrance on summit of Khao Khon Chai, on W. side. Approach from Wat Phon Sawan on E. side of mountain. steep path leads to top of hill + cave, c. 1km walk.

27/9/95 Tham Khao Khong Chai
 GPS - 20m W. of cave.
 15° 26.430' N 4 sats
 99° 35.282' E

Obvious large entrance in W. facing cliff near end of N-S blind valley at Northern end of mountain, at Wat Khao Khong Chai.

C. 25m High cave in temple, very short to a long climb up, c. 20m to obvious hole in roof. Many bats (said to be 1,000,000) live up there and streams of liquid guano pour down walls and onto floor of cave. Much associated life, inc. ticks, lice, fleas, ants, cockroaches, worms, flies, etc. Mainly outside creatures utilising guano. Is fenced off at entrance but fence is in bad repair. Caving Supplies Ltd., Buxton, England. Bats are protected by climb and smell!
